

Five Ways Your Business Can Benefit with an ATS

Hiring Can Be a Real Challenge

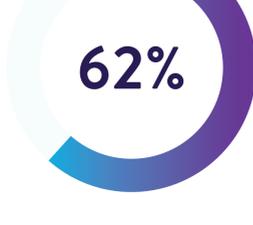

For small and growing companies, hiring can be very difficult. Your team wears many hats, and purpose-built hiring technology can help tackle the challenges that your company is facing as you look for top talent in a tight market.

If you feel there's not enough talent to fill open positions right now, you're not alone. This is the top issue for companies just like you, with 55% saying they're struggling to find the right candidates right now.

#1: Get Ahead & Supercharge Hiring Collaboration

As a growing company, standing out to candidates can be tough.

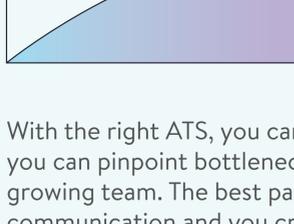

62% of managers hiring for small-and medium-sized companies are concerned about improving their quality of hire.

RECRUITMENT SOFTWARE EMPOWERS YOU & YOUR TEAM TO WORK TOGETHER BY:

- Streamlining Hiring Workflows
- Easily Viewing Notes & Scores
- Creating Comments for the Hiring Team

#2: Grow & Scale Faster

Scale Faster by Streamlining the Hiring Process.

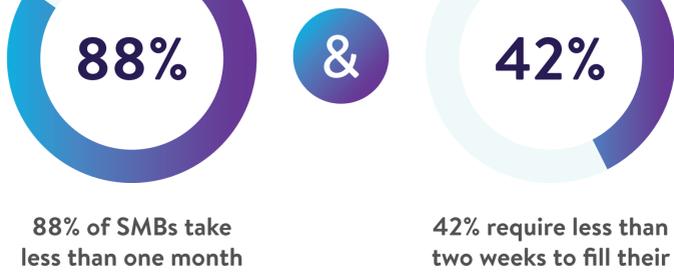

60% of companies predict they will grow their recruiting team and almost half will likely spend more on hiring.

With the right ATS, you can leverage insights and analytics, so you can pinpoint bottlenecks, hire faster and optimize your growing team. The best part? Candidates get lightning-fast communication and you create scalable workflows that work for how you hire today and tomorrow.

#3: Make Hiring More Agile

Did you know it's estimated that 65% of small businesses aren't using an ATS? Get ahead of competitors and connect with talent faster.

HIRING IS ALL ABOUT SPEED RIGHT NOW:

88% of SMBs take less than one month to fill open roles.

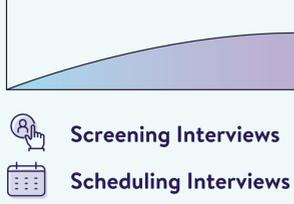

42% require less than two weeks to fill their open positions.

If you aren't decreasing how long it takes to hire for your business, then you are likely missing out on talent.

WITH AN ATS, YOU CAN AUTOMATE REPETITIVE TASKS AND SPEED TIME-TO-HIRE TO:

- Easily Source Candidates
- Schedule Interviews
- Automate Candidate Communications

#4: Take Back Time While Crossing Items Off Your Recruiting To-Do List

40% of growing companies indicate that screening and scheduling interviews are the tasks they want to automate most.

#5: Better Compete for Talent

With the right recruitment software, you will be better positioned to compete for the limited pool of talent, even against companies with well-known employer brands.

That's why nearly 48% of small-and medium-sized businesses are planning to invest more in recruiting technology over the coming year.
